1. BASIS OF PRESENTATION

These interim financial statements have been prepared using Canadian generally accepted accounting principles (Canadian GAAP). The interim financial statements include normal recurring adjustments, which in management’s opinion, are necessary for a fair presentation of the financial results of the interim period presented.

5. CONTINGENCY

During the period, the Company received a notice of dispute under the Akie property option agreement dated Aug. 23, 2005, from Ecstall. The fundamental question in dispute is the extent to which expenditures incurred by Mantle on the Akie property during 2006 qualify as expenditures for purposes of Mantle earning its 65-per-cent interest in the Akie property as contemplated under the option agreement.

Under the terms of the option agreement, the parties had 30 days from the delivery of notice of dispute within which to reach an amicable settlement, failing which the matter would be referred to binding arbitration. The Company offered to meet and discuss the dispute amicably, and proposed several meeting dates, however, the parties have not been able to arrange a mutually convenient time to do so within the 30-day time frame which expired Oct. 5, 2006.

Notwithstanding the expiry of the grace period, the parties may convene a meeting to discuss the dispute prior to referring same to arbitration.

The Company is on the verge of completing the 2006 exploration program on the Akie property and has spent in excess of \$4-million in expenditures over the 2005 and 2006 exploration seasons, such that it intends to exercise its option to acquire the 65-per-cent interest immediately upon receiving confirmatory evidence of the exploration expenditures from the project manager, Coast Mountain Geological Ltd. In the event Ecstall resists the exercise of the option, the Company intends to refer the matter to arbitration and seek a declaration that it has earned its interest. Management is of the opinion that it will be successful in doing so and believes that there is no merit in Ecstall's notice of dispute.

6. TRANSACTIONS WITH RELATED PARTIES

During the three months ended September 30, 2006, the Company paid or accrued \$22,500 (2005 – \$15,000) for management fees and \$7,500 (2005 – \$3,000) for administrative fees to a company controlled by a director of the Company.

During the three months ended September 30, 2006, the Company paid or accrued \$6,870 (2005 - \$nil) for consulting and geological services fees to a company controlled by a director of the Company

- (d) the Company entered into a financing arrangement with Lundin Mining Corp., subject to TSX-V approval, pursuant to which Lundin Mining will purchase units equal to just under a 10 per-cent equity position in the Company. Lundin Mining has subscribed, by way of a non-brokered private placement, for 3,685,000 units of the Company at a price of \$0.78 per unit for gross proceeds of \$2,874,300. Each unit consists of one common share and one common share purchase warrant.
